

Brio®

Brio Open Rail 80 Series

Premium Hardware System for
Seamless Sliding Doors

The Brio Open Rail 80 system combines a sleek, minimalist open-rail design with reliable performance for residential and light commercial panel sliding doors.

Key Features

- Load capacity: 176 lbs per door
- Extruded aluminum open rail for a clean, modern look
- Full system: Hangers, door stops, guides and mounting brackets
- Precision ball-bearing rollers for smooth, quiet operation
- Easy installation with adjustable components
- Available finishes: Satin stainless, black

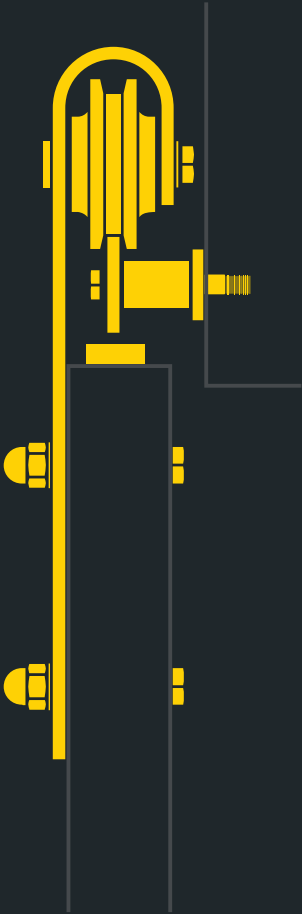

Why Choose Brio Open Rail 80?

- Modern open-rail design complements contemporary interiors
- Robust components for long-term reliability
- Compatible with a wide range of door materials and thicknesses
- Full support: Installation guides, replacement parts, and 10-year warranty
